Preface

SNDT Women's University is a legacy institution engaged in women's education for over a century now. Since the university has multiple subject areas being offered the research culture is also diverse and multilingual.

This booklet covers research activities undertaken across various disciplines at the University. Most faculty members undertake funded as well as self-financed projects. Most members keep sending research proposals and keep themselves updated with the developments in their subject areas. Conferences and seminars by students and faculty members is the routine and most postgraduate department students present their work even outside their own departments at national and international conferences. SNDTWU all houses two endowment funds that is SUUTI and AW, which facilitated students and faculty of university.

The beauty of research at our university is the multi-disciplinarity of the institutions. Due to the diversities of disciplines (Fine arts to finance and computers to community development and levels UG, PG, PhD), the research output at the university is unique in terms of methodologies and outcomes. The funders are also local as well as global, Government as well as non-government. Many of our Departments and institutions are known nationally and internationally.

This booklet lists research related activities during academic year 2015-16 to academic year 2021-22 in terms of types of projects, persons, funders, amounts of funding, patents and conferences and seminars to disseminate research findings.

5. Future Plans

SNDT Women's University aims to empower women and give them infinite strength. Research activities at the university also focus on making a difference to the society besides creating a new knowledge, validating earlier knowledge and exploring newer ways to know-feel and do things.

As evident from the work listed in this booklet the work across the boundaries of disciplines, geographies and themes will continue in the year to come. More funded projects, research support, conferences, patents and IPR processes will continue and students, faculty members, academic administrators and society will benefit in the process of research interventions.

University has set up research fund of Rs. 50 Lacs for the year 2022-23 for which applications were invited for research and publication grants. The grants were disbursed to all Faculty members across Departments and conducted institutions. Coming year would witness expansion of this activity for affiliated colleges.

The endowment research processes will continue as in the past and faculty members have been seeking support from varied sources of research funding from local, national and international bodies. Research culture at the university is vibrant and it reaches the classrooms for students to society through the efforts of faculty members and university management.

“संस्कृता स्त्री पराशक्ति” स्वर हमारा है
विश्व है परिवार, भारत घर हमारा है।
हम नहीं हैं दीन, कहता कौन हम अबला
है सबल संस्कृति हमारी, हम सभी सबला
ज्योती से जगमग हुआ, अंतर हमारा है।।
स्वप्न ठाकरसी हुआ साकार है इसमें
महर्षि कर्वे तपस्या - सार है इसमें
हम दिशाएँ और यह दिनकर हमारा है।।
“संस्कृता स्त्री पराशक्ति” स्वर हमारा है
विश्व है परिवार, भारत घर हमारा है।
